

KEEP HUMANS IN CHARGE

An AI can optimize anything inside the walls. **Never the walls.**

We are for AI. We also intend to stay in control of it. The Human Continuity Standard is a bipartisan plan that lets the most powerful AI systems do almost anything, except take the future out of human hands.

Three things we ask of you

- 1 Sign on.**
Add your name to the call for the Standard.
- 2 Join the movement.**
Help pass proper legislation here and around the world.
- 3 Share it.**
Post it and send it to everyone you know.
